Making real people for your dream creations

## Undressed Doll Kits

Doll kits have either a fixed porcelain head and torso, or a swivel head on a torso, with internally jointed full length arms at the shoulder and porcelain half or thigh-length legs. There are a variety of arms and hand positions and different footwear for some dolls such as boots, high or low-heeled shoes, bare feet etc. available.

The kit is completed with a calico lower body and upper legs; this is made bendable using pipe cleaners and gives a traditional smooth finish to the doll - no loose stuffing or exposed wires. You can then pose the doll in sitting, standing, kneeling etc. Kits can be varied in size depending on how long you make the calico part of the legs and body.

Everything you need to complete the doll, including hair, is in the kits - all you need is a needle, thread and some tacky glue.

Doll kits contain: -

- Kit instructions
- Wiggling instructions
- Calico body and legs
- Hair
- Child safe stuffing
- Pipe cleaner
- Porcelain legs
- Porcelain head and torso with jointed arms at the shoulder

## Assembled doll kits

We can make up doll kits for an additional £8.00, choose the kit, state you would like it assembled on the order form and add £8.00. This does not include wiggling the doll, so don't forget to state which hair colour you require.
